Skills

Programming Languages: C, JAVA, PYTHON	Data Base SQL
Web Language HTML, CSS	Team Collaboration

Projects

Intelligent Aerator Control in Aquafarming

The project on Intelligent Aerator Control in Aquafarming aims to revolutionize the way aquafarmers manage the oxygen levels in their water systems. This intelligent control system is designed to detect the oxygen levels in aquaculture ponds and automatically adjust the aerators to maintain optimal conditions for aquatic life.

Certifications

- DP-900: Microsoft Azure Data Fundamentals
- AWS Academy Graduate – AWS Academy Cloud Architecting
- AWS Academy Graduate – AWS Academy Cloud Foundations
- Cisco CCNAv7

Workshops and Technical Participation

- Participated in a National Level Techno Fest.
- Participated in workshops on GIT AND GITHUB, Ethical Hacking.
- Participated in workshop on Salesforce organized by Smart Bridge.

Internships

AICTE AWS virtual cloud internship

Declaration

I hereby affirm that all the information above is true and to the best of my knowledge.
